# Twenty Years Ahead!

# rawford Ranges

Other ranges have not advanced in any material way in twenty years. They have the same cook-confusing, food-spoiling way of regulating by two dampers.

Crawfords have but One Damper (patented); one motion controls fire and oven absolutely; slide the knob to "kindle." "bake"or"check"-the range does the rest. No damper mistakes.

Ordinary ranges have the old clumsy ash pan; troublesome, untidy.

Crawfords have an Ash Hod (patented) into which alithe ashes fall, far below the fire-making their disposal easy and cleanly. The Coal Hod is beside it.

Crawford Ovens have cup-joint flues that heat every part uniformly.

Crawfords have Patented Gratesmost durable, least trouble. Gas Ovens and Broilers at end or above range furnished if desired

Ask the Crawford agent to show you and
